For Your Daily Protection

IMMUNE STRENGTH is a set of Lactoferrin CLN®, all essential vitamins and minerals, and a powerful combination of Turmeric, Ginger, and Saffron.

A unique combination of Lactoferrin CLN®, all essential vitamins and minerals, as well as curcumin, ginger, and saffron.

A strong immune system is crucial. Especially during high viral exposure, but also with allergies, our body's defense is put to the test. We can actively strengthen our immune system.

- Iron binding and transport
- Supports the immune system
- Curcumin-ginger-saffron combination
- Vital and micronutrients
- Anti-inflammatory synergy

What is Immune Strength?

IMMUNE STRENGTH is a set consisting of Lactoferrin CLN®, all essential vitamins and minerals, and a powerful combination of turmeric, ginger, and saffron. The package contains three very special products: **MULTI, LFERRIN, and CURCUMIN VITAL**.

A strong immune system is essential. Especially during high viral exposure and allergies, our body's defense system is put to the test. We can **targetedly strengthen our immune system**.

By supplementing with one capsule of **MULTI** daily, the body's stores of purely natural **vital and micronutrients** can be replenished, bringing **more variety** into the diet, which is often unbalanced due to stressful daily life.

LFERRIN contains highly purified Lactoferrin CLN® in premium quality, making it **the ideal companion in the modern world**. As one of the most valuable body proteins, Lactoferrin is a **natural part of the immune system**.

CURCUMIN VITAL – a powerful combination for your well-being. Our unique formula combines

the potent properties of high-quality **turmeric (Curcugreen™)**, **ginger**, and **saffron** to help you experience **anti-inflammatory effects naturally**.

Why Immune Strength from artgerecht?

- Highly purified Lactoferrin CLN® in premium quality
- 100% natural multivitamins derived from vegetables, fruits, and mushrooms
- Full-spectrum extraction of high-quality Turmeric (Curcugreen™)
- Lactose-free¹ & free from artificial additives

Frequently Asked Questions

Do I need MULTI if I eat a natural diet?

We are convinced that a natural diet is the foundation of a healthy life. However, studies have shown that the levels of micronutrients like vitamins, minerals, and trace elements in our foods have decreased, meaning that optimal nutrition might not be guaranteed.

Lactoferrin is derived from cow's milk—can I just drink milk instead?

Unfortunately, no. The lactoferrin in milk is present in very small amounts per liter, and through the processing of (H-)milk, it is destroyed.

Is LFERRIN suitable for children?

Our products are primarily designed for adults. However, it is a fact that lactoferrin is also added to many baby foods and infant formulas. We recommend consulting with the child's pediatrician for advice.

Does it make sense to supplement with iron as well?

Iron salts as supplements are poorly bioavailable and often cause side effects (e.g., gastrointestinal issues). We recommend our NATURAL IRON, which contains Lactoferrin as transferrin and plant-based curry leaf-derived iron.
